To Whom It May Concern:

Re: Zeljko Stojisavljevic and Solid Wood Home Services Inc.

It is with pleasure that I write this letter of recommendation for Zeljko Stojisavljevic. As the Director of the Centre for Integrated Healing, I hired Zeljko for several renovation projects at the Centre, including creating a new office space, installing doorframes and doors and re-painting the Centre. I was so impressed with his professionalism, honesty, hard-work and high quality of workmanship, that I have since hired him personally to complete several renovation projects in my home, including renovating my bathroom (building new cabinets and mirror and installing new sink, paining, tiling), bedroom (installing hardwood flooring, painting) and laundry room, as well as a number of other projects within my home and yard (building a kitchen table, installing a garden trellis, repair of cabinetry, plastering and painting).

Zeljko is extremely hardworking and honest. I, like many people, have often wondered in the past whether some tradesmen were billing accurately or 'marking-up' their supplies. With Zeljko, I know that I can completely trust this word and that he is always acting in my best interest – if anything, he sometimes hasn't charged me fully for all the hours that he has worked. He has a wide-range of skills and seems capable of taking on any project. He is very creative and has often demonstrated an ability to find a creative and pleasing solution to a problem, which, to my eye, seemed impossible. He has a great eye for aesthetics and, as a result, his work is not only fully functional, but also very pleasing visually.

Zeljko is very efficient, but never sacrifices quality in his work. He pays attention to small details, and is very conscientious. He is also very friendly, very accommodating and is a real pleasure to work with. I recommend him and his work very highly and know that if you hire Zeljko and his company for your next project, you will, like me, be very pleased and impressed with the result. Please do not hesitate to call if you have any questions regarding this reference.

Yours sincerely,

Hal Gunn, M.D.
Director, Centre for Integrated Healing
